EDUCATION & CERTIFICATIONS

Southern New Hampshire University   Graduated Jan 2023
BS-Computer Science with a Concentration in Software Engineering
- Cumulative GPA: 3.17
- Coursework: Data Structures and Algorithms, Full Stack I, Software Development Lifecycle, UI/UX Design and Development

PROJECTS

Academic Projects:

Travlr Vacation Booking Site | *Angular, MongoDB, Express, Node*
- Full stack application that allows the user to login and add packages to book a vacation.
- Covers full CRUD operations as well as authentication and REST api implementation.
- https://github.com/njandersen/CS465-fullstack

Personal Projects:

Personal Blog | *Next.js, Firebase*
- Made with Next.js for backend REST endpoints and React frontend. Firebase serves as the cloud database.
- Uses Sass CSS library
- Link on my personal site: www.njandersen.com

Guardian Dispatch | *Next.js, Firebase*
- Social site built for the Destiny 2 community. Allows users to create posts and for others to like the posts.
- Built with Next.js and Firebase with full CRUD operations and Firebase authentication.
- https://guardian-dispatch.vercel.app/

PROFESSIONAL EXPERIENCE

Wal-Mary Pharmacy, S. Williamson   2016 – 2022
Certified Pharmacy Technician
Working as part of a team to take, input and fill patients' medications. Answering any questions, they may have and assisting the pharmacists with giving shots and testing patients. Dealing with such sensitive information has made me excellent and dealing with stress and attention to detail.
- Prioritize multiply tasks in a fast-paced environment to meet weekly deadlines

- Collaborate with a talented team of Tech's to optimize patient care and outcomes.
- Assist Pharmacist in giving Vaccines and monitoring for adverse reactions.
- Converse weekly with Manager to identify missed opportunities and goals met.
